
Rows in order of construction start (year at right of name); numbers at the right of each panel are the plotted values. Colour and name = reef; symbol shape = surf outcome (legend below). Solid fill: sourced or derived from traced geometry; light fill: assumed, low-confidence or not directly comparable (photo trace, bounding rectangle, both mounds at Borth, LAT datum at Opunake); "unknown" value: not found in any source checked.

Surf outcome (symbol shape)

works · works rarely · mixed / disputed · does not work · unknown (hollow)
