
Plan view looking seaward (seaward up, north not up). Red φ_0 = assumed value. Panels without a label are at the common scale (1×; bar = 50 m); labelled panels are zoomed about the shoreline (y = 0) by the factor shown, bar as marked.

- - - main profile cut (Figure 1; Figures 4, 5, 7-9)
⋯⋯ second cut kept in Figure 4 (Albany only)
——— reef arm used for the peel angle φ_0
